

## Volume 58, Issue 2

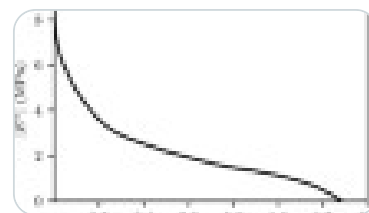

March 2025

25 articles in this issue

### **A fully coupled viscoelastic continuum damage model for asphalt concrete**

Valappol NavjotS. P. Atul Narayan

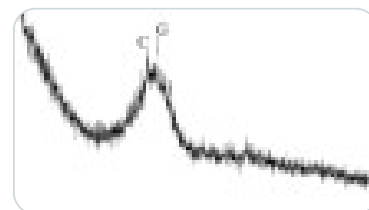

**Original Article** | 25 February 2025 | Article: 78

### **Improving the carbonation resistance of alkali-activated slag mortars by MgO with different reactivity**

Mingtao ZhangHua ZhangXin Li

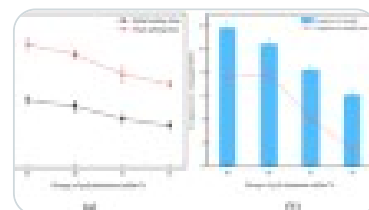

**Original Article** | 24 February 2025 | Article: 77

### **Preparation and application of environmentally friendly liquid alkali-free and fluorine-free accelerator for shotcrete**

Peng HuHongyu JiYulong Zhao

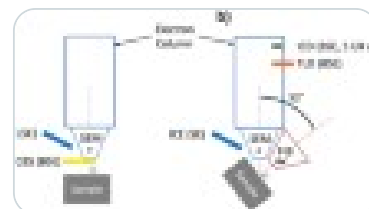

**Original Article** | 23 February 2025 | Article: 76

### **Probing the steel-concrete interface microstructure using FIB-SEM nanotomography**

Thilo SchmidNicolas RuffrayUeli M. Angst

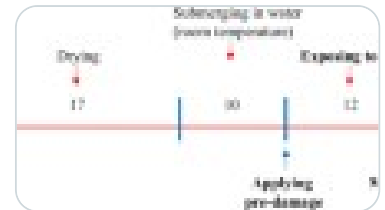

**Original Article** | Open access | 21 February 2025 | Article: 75

## **Dual-scale study of pre-damage, water boundary conditions and frost interaction in concrete**

Lang-Zi ChangKatja FridKarin Lundgren

**Original Article** | Open access | 20 February 2025 | Article: 74

## **3D Printable Ca(OH)<sub>2</sub>-based geopolymer concrete with steel fiber reinforcement**

Youssef MortadaAhmad HammoudEyad Masad

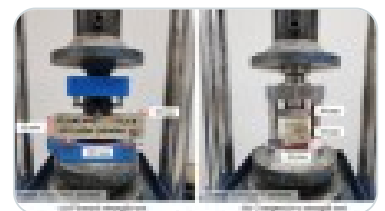

**Original Article** | Open access | 20 February 2025 | Article: 73

## **Mechanical properties of sustainable freshwater marine sand mortar**

Amelia Pei Sze ChaiMei Yun ChinMd Rezaur Rahman

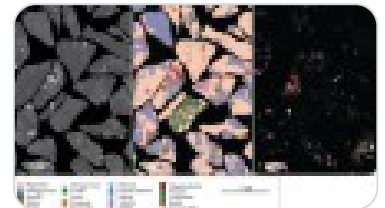

**Original Article** | Open access | 18 February 2025 | Article: 72

## **Classification and quantification of minor iron-sulfide concentrations in concrete aggregate using automated mineralogy**

Nikolas OberhardtStefanie LodeKurt Aasly

**Original Article** | Open access | 17 February 2025 | Article: 71

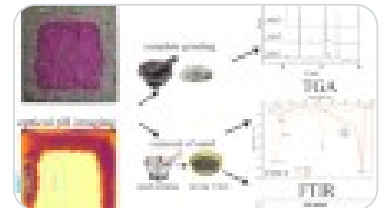

## **Report of RILEM TC 281-CCC: phase assemblage alterations and carbonation potential of mortar with blended cements induced by long duration carbonation exposure**

Juan M. EtcheverryNatalia AldereteNele De Belie

**RILEM TC 281-CCC - CARBONATION OF CONCRETE WITH SUPPLEMENTARY CEMENTITIOUS MATERIALS**

17 February 2025 | Article: 70

### **Part of 1 collection:**

RILEM TC 281-CCC - Carbonation of concrete with supplementary cementitious materials

## **Recommendation of RILEM TC 269-IAM: damage assessment in consideration of repair/retrofit-recovery in concrete and masonry structures by means of innovative NDT**

Tomoki ShiotaniKazuo WatabeRILEM Technical Committee

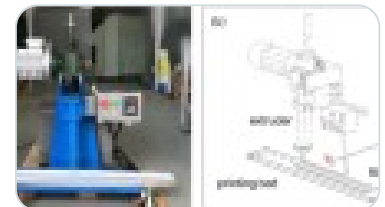

**RILEM TC Recommendation** | Open access | 17 February 2025 | Article: 69

## **Geometrical quality inspection in 3D concrete printing using AI-assisted computer vision**

Weijiu CuiWenliang LiuYaxin Tao

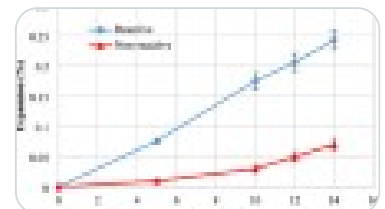

**Original Article** | Open access | 14 February 2025 | Article: 68

## **Effect of coarse or fine aggregate reactivity on bonding deterioration of reinforced concrete exposed to alkali-silica reaction**

Maryam Abbasiyan TaebFreydoon RezaieEbrahim Ghiasvand

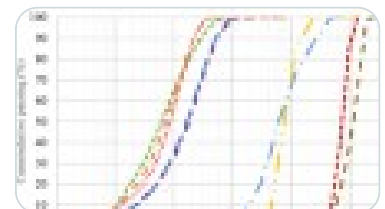

**Original Article** | 11 February 2025 | Article: 67

## **Implementing the effect of geopolymer concrete pore solution pH in the standard rapid migration test NT Build 492 protocol**

Yu PangQuang Dieu NguyenArnaud Castel

**Original Article** | Open access | 11 February 2025 | Article: 66

## **Heat and mass transfer in heated concrete: evaluation and validation of five numerical models**

Benedikt WeberColin T. DavieFrancesco Pesavento

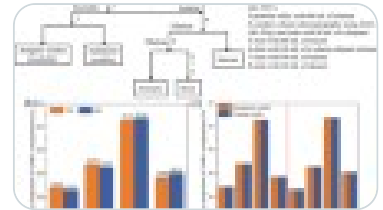

**Original Article** | 08 February 2025 | Article: 65

## **Characterization of physicochemical composition of asphalt/aggregate and multi-scale analysis of interfacial adhesion behavior**

Guoqing Sun Jiupeng Zhang Shuxian Zhang

**Original Article** | 08 February 2025 | Article: 64

## **How shearing affects air dissolution in fresh cement pastes under pressure**

Daniel Galvez-Moreno Dimitri Feys Kyle Riding

**Original Article** | Open access | 08 February 2025 | Article: 63

## **State-of-the-art on impact and explosion behaviour of concrete structures: report of RILEM TC 288-IEC**

Ezio Cadoni Alejandro Pérez Caldentey Jaap Weerheijm

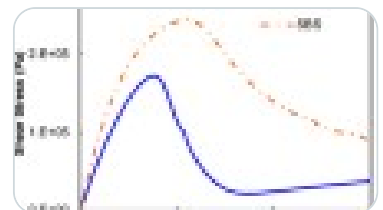

**RILEM TC Report** | Open access | 07 February 2025 | Article: 62

## **Validation of the linear amplitude sweep as accelerated fatigue protocol for damage resistance estimation of asphalt binder**

Chao Wang Yanguang Sun Zhengyang Ren

**Original Article** | 07 February 2025 | Article: 61

## **Hybrid modeling of piezoresistive pavement using finite element method and artificial neural network**

Tianling Wang Jianwei Shi Pengfei Liu

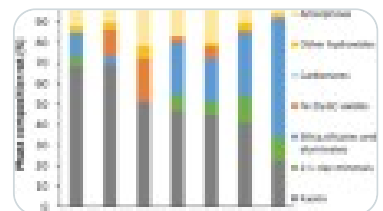

**Original Article** | Open access | 06 February 2025 | Article: 60

## **Rapid and economical method for assessing metakaolin quality as SCM for low carbon binders**

Mehnaz Dhar Shashank Bishnoi

**Original Article** | 05 February 2025 | Article: 59

## **Reviewing experimental studies on latent thermal energy storage in cementitious composites: report of the RILEM TC 299-TES**

Claudia FabianiEdurne ErkiziaAnna Laura Pisello

**RILEM TC Report** | 05 February 2025 | Article: 58

**Part of 2 collections:**

RILEM TC 299-TES: Thermal energy storage in cementitious composites

RILEM TC 299-TES: Thermal Energy Storage in Cementitious Composites

## **RILEM TC 309-MCP: recommendation on terminology for mineral carbonation construction products**

Ruben SnellingsThomas Matschei

**RILEM TC Recommendation** | Open access | 05 February 2025 | Article: 57

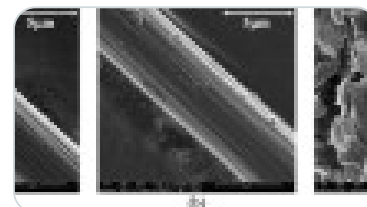

**Part of 1 collection:**

RILEM TC 309-MCP: Mineral Carbonation for the Production of Construction Materials

## **Electro-mechanical behaviour of mortars reinforced with alternative electrically conductive inclusions**

Niki TrochoutsouDanny SmylGiacomo Torelli

**Original Article** | Open access | 04 February 2025 | Article: 56

## **Non-destructive lab-scale monitoring of carbonation propagation in cementitious systems using the measurement of intrinsic electrical property**

Arezou BabaahmadiLuping TangIngemar Löfgren

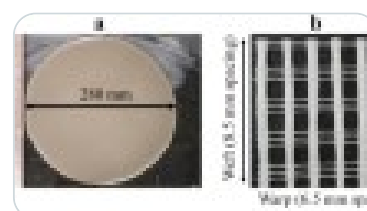

**Original Article** | Open access | 03 February 2025 | Article: 55

## **Experimental evaluation of size effect on the fracture response of glass textile reinforced concrete**

Ramakrishna SamanthulaRavindra GettuSachin Paul

**Original Article** | 03 February 2025 | Article: 54
