

## **Gypsum-induced retardation mechanism in magnesium potassium phosphate cement: roles of brushite formation and MgO passivation**

Original Article | 18 May 2026 | Article: 238

## **Effect of nano MgAl-NO<sub>3</sub> and MgAl-HCOO layered double hydroxides on early hydration kinetics and chloride binding in cement paste**

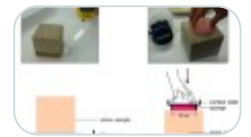

Original Article | Open access | 17 May 2026 | Article: 237

## **Advanced investigation of water sorption isotherms measured on raw earth construction blocks**

Original Article | Open access | 17 May 2026 | Article: 236

## **Quantifying sorptivity using the contact sponge method: an improved calculation method validated by classical capillary rise experiments and neutron radiography**

Original Article | Open access | 16 May 2026 | Article: 235
